Assignment : 1

1.
Suppose you went to a restaurant for lunch. There you bought 3 burgers. 4 cold coffee 2 french fries and 2 cokes.
prices are:

Burger: 120
Cold Coffee: 40
French fries: 60
Coke: 20

- Calculate the total price and print the value in below format

Output:

Burger: 120 *3   =360
Cold Coffee: 40 * 2   = 80
French fries: 60 * 2   =120
Coke: 20 * 2   = 40

Total Cost : 600/=
